Career Objective

Motivated **Full Stack Developer** with strong expertise in Python (Django, Flask), PHP, and PL/SQL. Experienced in developing secure web applications, implementing user authentication, and designing efficient database solutions. Skilled in building responsive user interfaces and following clean MVC architecture principles. A quick learner who consistently delivers maintainable and scalable applications while collaborating effectively in dynamic team environments.

Technical Skills

Programming & Frameworks

- **Languages:** C, C++, JavaScript, HTML5
- **Frameworks:** Django, Flask

Databases

- MySQL, MangoDB

Tools & Technologies

- VS Code, Git, GitHub, Postman

Key Concepts

- **OOP, Multithreading, Exception Handling**

Certifications

- ☐ **Python Full Stack Developer**

Professional Training

Python Full-Stack Development

Fortune Cloud Technologies Pvt Ltd

August 2025 – February 2026

- **Designed and implemented** end-to-end applications using **Django** and **Flask**.
- **Developed** secure, scalable **RESTful APIs using Django REST Framework**, integrating robust back-end and front-end systems.
- **Optimized** database performance using **MySQL** and **PostgreSQL**.

Education

Master of Computer Applications

June 2025 – June 2027

Dr Bv Hiray College, Malegaon

Bachelor of Computer Applications

August 2022– July 2025

Smt.S.M.Agrawal Institute, Chalisgaon

HSC

August 2020 – July 2022

Rashtriya Vidyalaya College, Chalisgaon

Key Projects

Job Portal

- **Tech Stack:** Django, Python, HTML, CSS, JavaScript, MySQL
- **Engineered a full-stack job portal application** with **secure authentication** and **role-based access** for job seekers and employers.
- **Developed** core features including **job posting**, **job search with filters**, **application management**, and **user dashboards** to enhance user experience.
- **Optimized backend queries** and implemented **dynamic forms with validation** to improve performance and ensure smooth interaction with **large job datasets**.

Om Netralaya & Dental Clinic Website

- **Tech Stack:** React, Flask, Python, JavaScript, Material-UI, HTML, CSS
- Developed a **responsive clinic website** to display **real-time services**, **doctor profiles**, and **appointment booking** for Om Netralaya & Dental Clinic using **React** and **Material-UI**.
- Integrated **Google Reviews API** to showcase **live patient ratings** and testimonials, and connected **Google Maps** for clinic location display seamlessly.
- Implemented **robust error handling** and **form validation** for appointment booking and contact inputs to ensure a **smooth and reliable user experience**.

Onelinbox — Full-Stack Email Management App

- **Tech Stack:** Java 17, Spring Boot 3, React 18, Vite, PostgreSQL, Gmail API, Google OAuth2, JWT, Docker, Nginx
- Built a **full-stack email management app** to connect **multiple Gmail accounts** with **AI-powered summaries**, **smart quick replies**, and **real-time inbox sync** every 15 seconds.
- Integrated **Gmail API** and **Google OAuth2** for **secure authentication** with **JWT-based token refresh** and seamless real-time data fetching.
- Implemented **error handling**, **session management**, **timezone bug fixes**, and fully containerized the app using **Docker Compose** with **Nginx** for deployment.

Core Competencies

- **Expertise in Java** and **Spring Boot** for scalable backend development.
 - **Proficiency** in designing and consuming **RESTful APIs** with documentation using **Swagger/OpenAPI**.
 - **Hands-on experience** with modern front-end frameworks like **Angular** for responsive UI design.
 - **Strong skills** in **database optimization**, query tuning, and managing **MySQL** and **PostgreSQL** databases.
 - **Exceptional problem-solving** and **debugging abilities** with a collaborative mindset.
-
